PROFESSIONAL SUMMARY

B.Tech CSE student (2026) with expertise in Full-Stack & Frontend Development using React.js, HTML5, CSS3, and JavaScript, and backend development with Node.js, Express.js, and MongoDB. Proficient in Python, REST API integration, JWT-based authentication, and AI/ML model development. Strong foundation in Data Structures, Algorithms, OOP, DBMS, and SDLC. Seeking an entry-level Software Engineer or Frontend Developer role to build scalable, user-centric applications.

TECHNICAL SKILLS

Languages: Python, JavaScript, C, C++

Frontend: React.js, HTML5, CSS3, Responsive Web Design, Cross-Browser Compatibility, UI Development

Backend: Node.js, Express.js, REST API Development, JWT Authentication, API Integration

Databases: MongoDB, MySQL, SQLite, SQL, Query Optimization

AI / ML: Machine Learning, Predictive Modeling, Model Training & Evaluation, NumPy, Pandas, Data Analysis

Tools: Git, GitHub, VS Code, Postman, Agile/SDLC

CS Core: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Networking Fundamentals

PROJECTS

RentLoop — Rental Marketplace Website | *React.js, Node.js, Express.js, MongoDB, JWT* | [GitHub](#) | [Live](#) 2024

- Designed and developed a full-stack rental platform for listing and renting items locally; integrated JWT-based authentication, location-based search, and rental request management.
- Built responsive UIs using React.js with cross-device compatibility; architected RESTful APIs with Node.js, Express.js, and MongoDB for efficient data persistence.

Portfolio Website | *HTML5, CSS3, JavaScript, Google Sheets API* | [GitHub](#) | [Live](#) 2023

- Built a fully responsive and modern personal portfolio website with smooth animations and cross-browser compatibility across Chrome, Firefox, and Edge.
- Integrated Google Sheets REST API for a seamless contact form, eliminating backend dependency and enabling automated data storage.

INTERNSHIP EXPERIENCE

AI & Machine Learning Intern 2025

InternCourse

- Developed and trained supervised ML models (Linear Regression, Decision Trees) using Python, NumPy, and Pandas; evaluated model performance via accuracy, precision, recall, and F1-score metrics.
- Performed data preprocessing, feature engineering, and statistical analysis on real-world datasets to derive actionable insights and improve predictive model accuracy.

Python Programming Intern 2024

Internshala

- Built Python applications applying OOP principles, file I/O, and exception handling; practiced systematic debugging to resolve logic and runtime errors.

Cybersecurity Intern 2025

InternCourse

- Researched network security protocols, attack vectors, and vulnerability assessment techniques; configured basic security measures and documented risk mitigation strategies.

EDUCATION

B.Tech — Computer Science & Engineering (Networks) 2022 – 2026

Government Engineering College, Kaimur

CGPA: 7.47 / 10.0

Intermediate (12th) — Science (PCM) 2021

Bihar School Examination Board

71%

Matriculation (10th) 2019

Bihar School Examination Board

71%

CERTIFICATIONS

- DBMS, Operating Systems & IoT — **NPTEL** MySQL & Python Programming — **Spoken Tutorial, IIT Bombay**
- Introduction to Cybersecurity — **Cisco Networking Academy** Cybersecurity Fundamentals — **IHub DivyaSampark, IIT Roorkee**

ADDITIONAL INFORMATION

Languages: English (Professional Proficiency), Hindi (Native) **Open Source:** Active GitHub Contributor **Interests:** Full-Stack Development, Machine Learning, Competitive Programming, DSA
